SEO Next Scam: Who is Fooling You? by [James Blee](#)

Article published on June 8th 2012 | [Internet](#)

What search engine optimization really does? It makes web pages so popular that when someone searches with the keyword he or she can find that webpage on top of the ranking. That is what is done for seo next scam. The company name was used and seo optimized in such a way that people only find the bad review websites when they search with the keywords and the name of the company. This is not shameful for the company but for the competitors itself. They could not beat the company in the right way and took the wrong way of defamation.

The reason the rivals are jealous of the company is that the company has a large share of customers under its brand name. They can attract people with their honest attempt to make clients successful and the resources that they have actually helps the clients achieve success. But every company cannot perform in the same way. But what they can do is spread things such as seonext complaints, seo next reviews, [www.seonext.com reviews](#), [www.seonext.com complaints](#) and all such negative keywords on web in such a way that people will feel that these reviews are correct and they will take services from the second or third ranked companies. This is actually cheating and not being honest to customers.

There are many seo next bad reviews on web that would tell you that the company is a scam. They will just take money from you without delivering any good service. But is it really possible to fool the number of the customers that the company actually has? Absolutely, not. You are not being fooled by seo next for sure. But you are going to get fooled by the rival if you really believe on those bad reviews.
