Scintillating Ruby Rings by Vishnu Batwra

Article published on March 2nd 2012 | Jewelry

The â€˜rubyâ€™ word has originated from the Latin word â€˜ruberâ€™ meaning color red. The price of a r determined by its color. Incandescent and most valuable and precious â€˜redâ€™ ruby also known as pigeon-blood red, proclaims huge value over other qualities of rubies. These are also considered the hardest stones among other gemstones with diamonds, emeralds and sapphires.

Ruby is a pink color to a blood-red colored gemstone, various oxides of aluminum or mineral corundum. Red color in a ruby is caused by the element present in it namely chromium. This makes it look blood red which is an extremely alluring color.

Ruby is internationally considered as one of the most precious stones as sapphires, emeralds and diamonds. This stone is wonderfully beautiful. It is very popular as the red colored beauty that the stone possesses is enough to make one miss his heartbeats. The stone is incredibly beautiful and hence deserves all the praise and love it gets.

Ruby rings are the impeccable exquisite presents for someone who is very special for a person. For engagement purposes, ruby rings are perfect sort of gemstone. Solitaire ring settings are designed purposely for engagements are expressive and impressive as well, also they are very elegant.

The vintage solitaire styled ruby rings are timeless and unbound fashion ring. If you want truly staggering solitaire ruby ring for designer purpose browse with some good jewelers. Ruby rings have been an attribute of power, virility and great love. Ruby rings are generally worn on special occasions and this is the main reason why you can find hundreds of ruby engagement rings and ruby wedding rings.

Ruby engagement rings are available in various shapes and sizes; whenever you search for ruby engagement rings, always choose the perfect one as you are purchasing it for someone who is really special in your life. It represents a value that you offer to that person, the stone is extremely valuable in nature and is popular among people of all ages, because of the romantic feeling it lends the wearer with. The red color represents love and passion.

Ruby rings which are custom-made are also an option whenever you feel to get it customized in your own way. The design of a ruby ring should also convey agreeable attention to long term durability of ring. Equal significance should be given to good looks and good craftsmanship.
