Children toys are not only meant for playing but are true companions of young minds. Children feel entertained by these toys and grow enjoying with them. However these toys are helpful for a child to grow well and learn more and more from the surrounding. Young mind visualize the world with the beauty of these playable items. These toys are also categorized in types which are as under.

* Dolls- a doll is hot favourite of a lassie bairn. She grows up idolizing her to be a doll and always feel a doll to be her best friend. Dolls are generally girlish and are decorated with clothes and accessories to make it even dishy. Children feel captivated by the beauty of the dolls as they are pretty and cut looking.

* Miniature- these are models of anything, like a superhero or cartoon character which please kids and make them cheerful. A miniature can be made of any material. Playing with these miniatures makes them dream about their heroes and comfort them by pepping up their minds.

* Vehicles- different gadgets and vehicles are also a part of playful material. Kids especially a lady bairn rejoice driving and playing up with vehicles. The designed gadgets are of the same form as the ones in real. Kids are enthusiastic racing up the vehicles and going through the passion of biking or jam-jar racing in real.

* Educational toys- educational toys are for little grown up kids. These toys are the starting brick of the learning phase for kids. These playable makes education a fun activity to start with so that the learning phase is not at all boredom and is simplified to the fullest. These forms stepping stone towards learning for kids.

* Puzzles- puzzles sharpen the mind of the children through continuous exercise of mind. Young minds are energetic and utilize this energy in building up positivity through puzzles. The puzzles have various forms which have alphabets, pictures, cartoons, and sceneries to make. Puzzle solving kills the time as well as keeps the child engaged in a fruitful activity for long time.

* Construction sets- the construction sets is the first move towards a quality playing. They find it bleedinâ€™ lavish to play with construction sets thinking it to be their abode. For kids it is a great job to complete such task and they construct their own world through such activities along with learning.

* Plush toys- plush toys are stuffed toys like teddy bear. Meant for bleedinâ€™ wee babies, these toys are loved by all. Plush toys have animal character along with stuff inside and can also be built in with sounds and moves.

These varieties of toys makes kids chuffed and energetic making them utilize their time in a right manner. Children toys are found almost everywhere but while choosing the toys people should be careful of the material, safety and disposal of the same.
