Article published on December 26th 2011 | Marketing

Heavy industries need a lot of detailing and there is the use of various kinds of tools and machines. Thread repair is one such aspect and it is best to opt for professional companies as now they are the best in this regard. They use the new age hinge reverse thread chasers which make the work not only more efficient and quick but also make it more cost effective for the clients. The can repair the spindles, studs and any other kind of tool where threads are needed in large machines or trucks, trailers and vans.

The tools and thread repair machines in thread repair companies are made with 01 Tool Steel and have Rockwell Hardness of 60. The mechanism of work is very unique and it goes without saying that thread repair has been revolutionized by them. With over a decade of experience, they are now into thread repair with all the experience and the expertise of the best technicians in the industry. Some of them also make chasers for all kinds of thread. The rates of working with them is not only low in itself but they help you to damage studs and bolts which are complex in nature and would have other wise been thrown away in spite of being too costly.

So, it takes care of your money in every way possible. Moreover, if you are buying the tools, then all of them come with a 30 day guarantee, ensuring that if you do not find the tools working properly or if they are found to be damaged in any way, then they will be replaced or fixed without cost. So opting for professionals is the best thing in thread repair and bolt threads requirements.
