Samsung R910 Galaxy Indulge by Jameskenrich

Article published on January 18th 2012 | Mobile Phones

Samsung R910 Galaxy Indulge phone is said to be the United Stateâ€™s first 4G LTE Android smartphone which was inaugurated by MetroPCS. This Samsung Galaxy smartphone is said to contain a microSD memory card slot that can withhold a 32GB memory card.

Design and display: The display is said to be 3.5â€• & has a resolution of 320 x 480. This smartphone is available in black color. It possesses a 3.5 mm headset jack, power/lock key, camera shutter button, microUSB port and volume button on the sides. MicroSD card slot is present in the backside of the battery, and so one has to remove the battery to access it. This smartphone operates on Android 2.2.1 Froyo platform. There are 7 homescreens to select from, wherein the bottom part of the screen includes shortcuts such as contacts, phone, applications and messaging. Changing homescreens is considered to be a pretty smooth process, thereby enabling you to perform it with much ease.

Camera and music player: The QWERTY keypad possesses big keys and is said to help you in typing in a smooth manner. This smartphone includes a 3.2MP camera that contains autofocus feature. The camera allows you to select from various given shooting modes to capture an image. It becomes easy for you to sync with your Facebook, Google, Twitter and MySpace accounts and all of your contacts are connected in an individual place. You can record videos in 720 x 480 pixel resolution and the quality of the video is said to be pretty good even when played on a PC. This Samsung Galaxy smartphone is said to support playback of several video formats such as DivX, MP4, H.264, and XviD in a smooth manner.

The music player lists out the songs in various categories such as playlists, artists, genres and albums. You can either use a 3.5 mm headphone or a Bluetooth stereo headset to hear songs excluding hearing them through the speaker of the phone.

This smartphone possesses a battery that supports standby time for 12 days and talk time of 5 hours. This Samsung mobile price is said to be $299. Although this Samsung mobile price is higher than other equivalent smartphones, the user gets the best out of this smartphone since it operates on Android 2.2.1. Froyo platform.

Altogether the Samsung R910 Galaxy Indulge is said to be handy for those who are on the look for a smartphone that has a good call quality, easy to type QWERTY keypad and battery long life.
