Makehitmusic - Mad over Music Melodies by [Kendrickblaine](#)

Article published on January 16th 2012 | [Music](#)

Music plays a great role in the life of everybody. Of course people love to hear the new born child crying and the old grandmothers are able to tell the reasons in a precise manner once they hear the different varieties of crying done by any child. A child in fact does not know as to how to communicate except by way of crying. She may be ill, hungry or willing to sleep. In order to fulfill her necessities she uses the known communication channels namely crying in different modes and tunes.

The child once starts growing learn to talk and communicate through body language. Music nourishes people and no medicine can be found more curative than a good music. Music is nothing but creation of a sound by some external means; it can be a mere singing a song through word of mouth; creating sound by external elements like guitars, drums, violins, pipes and many more.

Music is used everywhere; in houses, offices, restaurants, buses, trains, airplanes, railway stations, canteens and fields. It can be very well seen that the youngsters are hearing the world renowned hip hop beats using their ipods and mobile phones. In fact, nowadays, the mobile phones have a lot of features namely; the video player available in the mobile phones enables the user play, send, rename, delete, sort the videos and he can select the storage position; on account of availability of FM radio facility, he can very well hear rap beats through any FM channel and many more. He can listen to it while running other applications also.

At present, functions, cultural events and many more celebrations are held in houses, offices, meetings, seminars and conferences. It can be seen that the entire events are photographed as well as video graphed so the recorded images can be seen conveniently at any time in the near future. Especially, these are absolutely necessary during weddings which are very rare occasions in the life of any person. However, the video images are supported by well defined hip hop beats and many music recording centers are experts in this field.

There is definitely a lot of difference in viewing the images without having any music background and viewing the images supported by good rap beats and definitely the latter part will inspire the people to a great extent and during such occasions it is the responsibility of the concerned to contact the appropriate person who is skilled in the field.
