See the difference Volvo tuning will make to your XC60 by [Mary Porter](#)

Article published on June 22nd 2012 | [Music](#)

Like to give your Volvo a little extra pep to improve it's overtaking ability? Volvo tuning is the answer. It's a simple no-nonsense solution that can take your car's standard 215 horse power and boost it to 245 BHP. Just imagine what you could do with that extra 30 hp, Volvo tuning makes quite a difference to the standard power output of the vehicle, especially when it's provided by experts in D5 tuning.

There are various benefits to Volvo tuning and better performance is just one of the highlights of this highly useful service. You'll find Volvo tuning makes your car far more responsive, let's examine some of the benefits in closer detail.

Enhanced performance

Following Volvo tuning you'll witness a big difference in the way that your car accelerates. It'll give you greater confidence to complete overtaking procedures. Floor the throttle and the car feels more responsive, it's livelier, the Volvo tuning has made it more of a driver's car. The factory settings are altered with Volvo tuning and it beefs up the power of the car.

Better fuel consumption

Volvo tuning helps to eek out stops between fill ups, your car becomes more frugal once it's been treated by a specialist in D5 tuning. With the price of fuel on the increase again it's worth having Volvo tuning, it'll certainly save you money at the pumps. Watch the MPG's rise and the cost of fueling fall following a course of Volvo tuning.

Reduced delay

Notice how your car is a little sluggish when pulling away in standstill? That's quite common for the Geartronic system. Following Volvo tuning that's less noticeable, there's certainly less of a delay from standstill and the automatic box seems to respond a little quicker.

It's simple to do

Volvo tuning is provided by specialist tuning centres that provide D5 tuning and engine remapping on all makes and models. You don't even have to take your car into a service centre to have the Volvo tuning. It can be completed from the comfort of your own home. All that happens is a technician plugs a laptop into the ECU of your car then alters the existing software in the engine's computer. It's safe, eco-friendly and Volvo tuning is quick and simple, leaving you with a car that has more power and benefits from better fuel economy as well.
