Article published on December 28th 2011 | Others

All properties are attacked by the elements, and your roof bears the brunt. Left untreated, small problems like split guttering and cracked tiles can become bigger and more expensive. These donâ€™t just threaten the value of your property but the health and safety of your family (and passersby).

We can protect your family and your investment by dealing with any roofing problem.

In AC Roofing Oxford has a roofing company with nearly 40 years of experience. Our expert team can handle all types of roofing requirements, from flat roofing and pitch roofing to associated roofing products and services. We offer competitive rates, and we pride ourselves on our professional approach to every job we carry out.

As a family business, we offer solutions for roofing Oxford can trust. No job is too small or too big for us. We have provided roofing services for a range of clients, from small-scale domestic jobs to educational institutions, the commercial and industrial sector, and large Local Authority contracts.

We offer FREE quotations so that you can benefit from our impartial expert advice. We ensure good communication throughout the project, and are always happy to answer any questions you may have, so that you can have peace of mind. We carry public liability insurance, and all our employees are CSCS Health and Safety certified.

We combine years of experience roofing Oxford with knowledge of the latest techniques so that we can help you with anything from a new build or a loft conversion, to the renovation of listed building. We can supply and use the appropriate materials, be they traditional or state of the art, to suit every type of roof and waterproofing situation.

We can provide:

Roofing services

For pitch roofing we can handle anything from minor maintenance to complete re-roofing and new builds, from supply and fixing of roof timbers and/or trusses to tiling. We offer all types of tile and slate, from manmade concrete and clay, to breathable roof membranes, vent tiles and dry fix products for air flow and ventilation. We also install warm roof systems (where insulation is laid over roof rafters instead of the ceiling joist).

For flat roofing we offer several solutions. Felt has been a cost effective option for over 60 years, and we offer a range of options, guaranteed for up to 25 years. Alternatively, EPDM is a single ply rubber membrane that offers greater strength and durability, and is UV and ozone resistant and Eco friendly, with a 50 year life expectancy and a 20 year guarantee.
