MagLite flashlights have been in business since 1979 and were originally targeted to professionals in industries like the fire department and law enforcement. As the MagLite flashlight grew in popularity all over the world, the flashlights eventually made their way into the hands of the average consumer for use around the house or on the go. In addition, the flashlights come in a huge selection of sizes from large to mini and even a wide variety of accessories making their flashlights incredibly versatile. Best of all, the MagLite was designed to be incredibly heavy duty and built for a lifetime of use.

In addition to being an authorized dealer of SKB cases and Pelican cases, MEI Research is also an authorized dealer of the globally recognized MagLite product. As an authorized dealer of the MagLite brand, MEI Research is able to offer you a flashlight from MagLite at an unbeatable and unbelievably competitive price. Today MEI Research will be showcasing the 2AA Mini LED MagLite. This particular MagLite LED was crafted after the legendary original mini MagLite. Like all other great products from MagLite, this flashlight was built strong enough to last a lifetime of use, while its durability and patented features are now available with the new MAG-LED technology. Due to its conveniently sleek and compact design, this small MagLite LED can easily store in a pocket, purse, glovebox, or any other area you can think of. These technologically advanced lighting instruments are perfect for personal use.
