Intelligent Retail Premium EPos solution is said to be an award winning and affordable. Connect Electronic Point of Sales (EPoS) software certainly brings an unrivalled service for those independent retailers. You can also incorporate your multichannel sales or even add this in the future, and with this it would be great if you are going to explore the versatility of Connest EPoS now. This system has actually built in all these benefits in order to help you as well as the independent retailer, to make the most of your business and succeed in the future. This will also help you in controlling your stocks, accounts as well as time management and marketing.

Most of the retailers actually say that an EPoS system could possibly make the store to look more professional and then gives the customers greater confidence in a certain business. Other than that, it will also helps your staff to sell more as the visual stock tree makes it so quick in order to find needed information on items, as well as finding the products and alternatives as well. Promotions give your customers another reason in order for them to come back, and there are varieties of promotions that are available in Connect with just a couple of clicks. They keep the shop vibrant and then make the shop an interesting place to visit and to work in.

However, there are still lots of reasons why lots of buyers wants to have it, and the most common reasons for buying EPoS is for them to control their stock and their sales reports as well. Connect has actually the innovative 'Visual Stock Tree' in order to give you an instant visibility of stock and powerful sales reports whether there's a need for you to see a single item, a group, a department or even your whole stocks! We all know that stocking the right products at the right time is very much important for all retailers that is why with Connect, you can now possibly set both minimum and maximum levels.

Other than that, the best thing about the Connect EPoS Systems is that, it can also calculates VAT on a product level. At the end of each financial period, all you have to do is just click a button and the accounts information is already provided for you to send to your accountant or even use in any of the accounts package. This will also saves hours so you can get on with something that is more useful. Connect has also an intelligent reorder engine that will analyze sales flow as well as minimum stock quantities in order to suggest a re-order profile for you.
