The Christmas is approaching! How exciting to expect the long holidays and imagine what gifts can we receive on the Christmas Eve. In addition to the joy about getting what we like, have you conceived any good ideas about what to send to your affectionate relatives and friends? If not, the particular self-designed page-turning Merry Christmas cards would be your nice choice.

As for designing Christmas greeting cards, you may usually take full use of those representative things, including the Christmas trees, snow-white scenery, snowflakes, red stockings, surprising gifts and also kind-hearted Santa Claus.

Except those festive things, we also have stacks of family photos or friends' pictures of the joyous holidays. How to take full advantage of your holiday features to create attractive greeting card for Christmas? You may get the inspirational ideas now. That is the page flipping cards! If some page-turning and flash-flipping photo cards with personalized messages are your ideal plans, then you've gotten to the right place which can offer you a particular greeting card-making tutorial.

Tutorial of creating page-flipping greeting Christmas card:

Materials needed: pictures or personal photos what you want to show on card, heartwarming message, Microsoft PowerPoint, Kvisoft Flipbook Maker.

Step 1: create a common greeting card in PowerPoint and save it as PDF format.

You can create as many pages as you like. Simply insert your selected images and input your Christmas messages into PowerPoint, you can customize for them with your beloved font styles or barbola. After everything finished, save your file as PDF format.

Step 2: import PDF card or other images into Kvisoft Flipbook Maker.

It's nice that you can add as many files (PDF, Photo, and FLV) as you needed into the flip page software. Change sequence of added files by drag.

Step 3: set background music, customize template and style for Christmas greeting card simply by mouse click.

Step 4: publish your designed Merry Christmas card as SWF, EXE, HTML or email a friend.
