2 ways to Convert 3GP to Apple TV on Mac by Sarina.Lee

Article published on March 12th 2012 | Software

Q: I want to see my videos in my widescreen TV though Apple TV, but the videos are in 3GP format. Is there any way to convert 3GP to Apple TV on Mac? I mean converting 3 GP to Apple TV compatible formats like MP4.

A: Get a video converter that allows you to convert 3GP to Apple TV on Mac.

3GP files are widely used in 3G cell phones. When a phone captures a video clip, that clip is automatically saved as the 3GP file type. Not all programs and devices have the capability to read the 3GP file type, including Apple TV. So if you would like to play a 3GP file to Apple TV, you can first convert the file to MP4 and other file format files recognized by Apple TV.

A lot programs can help you convert 3GP to Apple TV on Mac out there, here it shows you a commercial tool and a freeware respectively.

Convert 3GP to Apple on Mac â€“ use commercial tool

Apple TV Video Converter for Mac is a versatile and easy to use Mac Apple TV Video Converter. It can convert AVI, MP4, MOV, MKV, WMV, MPEG-1/2, 3GP, 3G2, VOB and HD video to Apple TV MPEG-4, H.264/MPEG-4 AVC, MOV video and MP3/AAC/M4A audio on Mac OS X with fastest speed and highest image quality.

Step 1.Download and install Apple TV Video Converter for Mac in your Mac next launch it.
