Angry Birds to thrill you on PC too! by [Maria Gini](#)

Article published on February 20th 2012 | [Software](#)

In spite of its simple storyline and simple interface the game of Angry Birds has stood the test of time enthralling millions of people all over the world. The game developed by Rovio, a Finnish computer game developer. It was first developed for iOS, the system to work on Apple devices but soon its popularity made it to be offered on Android operating system also in no time. Good news is that you can now enjoy the Android version Angry Birds pc free download. This has been made possible by BlueStack, a Silicon Valley startup with its unique App Player that allows any program on Android to run on your PC. Enjoying Angry birds pc game without Android based devices is one of many advantages of free download of App Player. You will be able to enjoy the game without switching over from Windows Operating system to Android, because the App Player can be installed like any other executable programs on your PC.

If you are new to the game of Angry Birds, Angry birds pc free will make you join the millions of angry bird fans all over the world. Secondly, though the original game was based for smartphones and tablets with touch screen control, Angry birds pc game can be played with mouse and keyboard. The story line of the game is that you have to use a slingshot to launch the angry faced birds aimed at the pigs which have stolen the eggs. You are required to destroy all the pigs on the field to win points. As the play advances, you will see new birds appear and these new birds have special abilities. Another good thing is that Rovio has been adding more features regularly and you can update them to enjoy the new features.

One of the reasons for the popularity of Angry birds is the simple interface and the comical theme of the game. There is no doubt that the game with these lovely birds is considered as the most addictive with more than 500 million downloads so far! It is the most successful app developed yet.
