Convert DivX to iPod with the 100% Useful Tool by Vivianusgong

Article published on March 29th 2012 | Software

"I have some videos in DivX format. In order to watch these videos on my iPod Touch, I have tried many DivX to iPod converters. But some won't convert the subtitle, and some trial versions leave watermarks on the video. I do not like that. I need an efficient tool. If it is worthy, I can pay it. Can you provide a useful converter to convert DivX to iPod?"

Do you know what DivX is?

Digital Video Express (DivX) is a digital video compression format based on the MPEG-4 technology. DivX files can be downloaded over high-speed lines in a relatively short time without sacrificing the quality of the digital video. Often used on the Internet to exchange video files. Originally developed for DVD encoding, DivX has become the internet video format of choice for high-quality productions.

Have you ever been frustrated with the same question above? There are tons of DivX to iPod converters on market, but not all of them are workable for you. Here I'd like to share a great DivX converter with you.

DivX to iPod converter is very useful video converter to convert DivX to iPod. Meanwhile, it also supports converting AVI, XVID, MPEG, MPEG1, MPEG2,RM, RMVB, MOV, WMV, WMA, MP4, VOB, SWF to iPod mp4 Video. It can convert almost all DivX video formats into the proper video format that your iPod understands with excellent quality at high speed. With it you can enjoy your favorite DivX videos in your iPod quite conveniently.

Operation steps:

* 1. Download and install DivX to iPod converter.

* 2. Load HD video files.

Click "Add" and load your DivX video files to this converter.

* 3. Set output format and parameters.

To convert DivX to iPod, click "Video Profile", then choose the proper output format and resolution as profile.

Set other properties for your output file, such as video/audio type, bitrate, video size, etc.

* 4. Drag the bar in preview window to set Begin time and End time of the source file, in order to convert your favorite segments. Of course, you can skip this step if you have no need of it.

* 5. Click red "Start" button to start the conversation.

When the conversion finishes, get your converted videos in output folder, and then sync the output videos to your iPod.

What is iPod synchronization?

When connected to a windows computer, the iPod communicates with a piece of Apple software called iTunes. The iPod and iTunes work together to synchronize the videos and songs available on PC to iPod. This happens automatically, without any intervention required from the users. After getting the video converted by DivX to iPod converter, connect your iPod, launch iTunes and update your library. Once you see your new videos inside the iTunes library, you can easily add them to your iPod. It's pretty easy to enjoy DivX videos on your iPod.
