Dell Latitude E6220 by [Theodore Sumrall](#)

Article published on April 23rd 2012 | [Software](#)

Dell Inc is an American multinational firm, which is based in Texas. It is one of the largest manufacturers of Personal computers and laptops. The firm offers the sales and supports of its electronic products like computers and laptops.

Dell Inc has a good status in the market of both personal computers and laptops. Dell means business and again it has come up its new Dell Latitude E6220, which is not much attractive. But its price will suit anyone as ultraportable corporate laptop. Apart from its look, Dell Latitude E6220 is quite impressive. It is fast enough for your daily tasks and it offers you a long battery life, which could even extend to a day depending on the type of tasks you perform with it.

The warranty and service option offered by this laptop will surely impress the business men. Dell Latitude E6220 offers the storage capacity of 128 GB, a Solid State Drive which is pretty standard among the list of ultra portable laptops. Dell Latitude E6220 is powered by Intel Core i5-2540M processor. The laptop comes with installed RAM memory of 4GB. The combined power of both processor and RAM memory give Dell Latitude E6220, the power to perform excellent. which is an essential component related with business machines.

Dell Latitude E6220 is 12.5 inches laptop, which is powered by integrated Intel HD 3000 GPU. Although it isn't falls under the category of excellent graphic card, but it still manages to smoothly play the video play back at 1080p. The Dell Latitude E6220 is also available with Intel Core i7-2620M and 8GB of RAM memory, for those who want even faster performance. The faster processor and 8 GB of RAM would cost you around \$2300 and for the additional price of \$350 they will provide you a SSD hard drive of 256GB.

On the go, the laptop provides a pretty good battery life of 7 hours and 28 minutes, but if an additional bottom mounted battery is added to the laptop, Dell Latitude E6220 will run for 20 hours. Yeah! I know the additional battery will ruin the laptops look, but you need to accept the trade off.

Dell Latitude E6220 has 12.5 inches display screen, which offers the resolution of 1366x768 pixels. It has smooth touchpad and nicely fitted keyboard, avoiding typos. The screen offer excellent contrasts and brightness. Wide viewing angle is another factor that may impress you and your friend, while watching movies all together. On conclusion, we can say that Dell Latitude E6220 is a great performer, which offers a long battery life.
