DVD to iPad Converter by [Madison Wandella](#)

Article published on June 24th 2012 | [Software](#)

If you have an iPad, you will understand that it is an amazing device, which is capable of many things to give you fun and entertainment. One of the things that iPad is capable of but is not well promoted and is a very beneficial feature to have is the capability to watch DVDs on this device. This is obtained through using a DVD to iPad converter.

Through using Idoo DVD to iPad converter, you can easily convert DVD movies to iPad to enjoy watching it. This software allows you to rip unprotected or encrypted DVD video into iPad3 or iPad2 video format with fast speed and without losing the quality of the videos. Whenever you need the best DVD to iPad converter, try using this software to convert the videos that you want to watch in your device. This software can also extract encrypted DVD to M4A audio converter if you want to playback it on your iPad2 or iPad3.

Aside from this, the software also enables you to easily merge a number of DVD chapters or titles into one without any interruption. You can even separate a chapter or a title into several parts if you want to. A DVD to iPad converter is really convenient especially if you're planning a holiday vacation with your family and friends. If you have a portable DVD player, just think of the hassle of bringing several DVDs and charging the device, just for you to be able to watch the movies. This is very inconvenient and not practical at all.

On the other hand, owning an iPad and converting DVD movies into it is very beneficial and more enjoyable than having to carry several DVDs. Through using a DVD to iPad converter, you can put a good number of DVD movies on your iPad and enjoy it for hours. This is also very beneficial during long car trips particularly when an originally planned one hour drive became three due to heavy traffic. Once you convert as many DVD movies as you want, these long car trips will no longer be a problem for you as you can freely watch and enjoy the movies that you really want.

Even the kids will enjoy the trip as they can have full control of the movies that they really want to watch. They can choose the movie they want, touch the icon and they are all set. If they want another movie, then they can simply stop the movie they're currently watching and choose another one. All of these can be done by the kids, even without asking for your help. Not only that they'll be able to watch their desired movies, but they also have a more enjoyable ride.

Using a DVD to iPad converter is really helpful to watch as many movies as you want with your device. You should also know that converting DVD movies to iPad is very easy. Just use the DVD to iPad converter, follow the instructions carefully and don't forget to select the movies that you want. After that, you will surely be able to enjoy watching your favorite movies in your iPad.
