Easily Fulfill the Need of Multiple Lotus Notes Mailbox Migration to Outlook by [Sophia Madison](#)

Article published on May 29th 2012 | [Software](#)

To possess an email platform is enough, you should be satisfied with the features and results especially when you are running a large organization. In large organizations you have multiple employees, is it possible that all are well-versed with features of Lotus Notes or is it possible that all are technically brilliant. The answer would be straight-forwardly "No". It is better to have an emailing client which is simple and easy to use so that connoisseurs and less computer literate can use features easily. For such a need, there is no other application better than Microsoft® Outlook. If you are using IBM® Lotus Notes and unsatisfied with functionalities then first carry out multiple Lotus Notes mailbox migration process to Outlook with some professional utility.

What's the Need for (<http://www.osttopstconvert.com/extract-lotus-notes-database.html>) Extract Lotus Notes Attachments? Your plan to change emailing client occurred because of various reasons such as:

- a. MS Outlook considered one of the best programs for organizations because it helps you to be organized.
- b. It easily syncs with almost all planning system. Enterprises find it one of the best planning platforms that helps users genuinely.
- c. It is possible to do many things with Outlook as it is available at nominal price in comparison to Lotus Notes. It helps you to mark personal appointments as "private" by checking small box towards the corner. With this feature, your appointments are not visible to all in your office.
- d. It helps in performing better scheduling tasks. It is a provider of reoccurring appointments, this helps students those who have classes once in a week. There is no need to input appointment on the daily basis.
- e. It provides you "Notes" section where you can write notes for yourself.
- f. Outlook helps you to have easy scheduling. Once everything is scheduled, you can take print out of your planner. This has double benefits; first you need not to write by hand and second you save money spent on entire set of paper for creating planner.
- g. If you want, you can even give everyone in your family a different color, and print in color, so that you can see where everyone is going to be from day to day.
- h. To keep track of the daily activities in organization or at home, you can use "Notes" section where you can mention daily records.

**Multiple Lotus Notes Mailbox Migration:** For migrating unlimited Lotus Notes mailbox from Lotus Notes to Outlook can be done with professional tool like Export Notes software. This utility assures to convert mails, meetings, distribution list, to do tasks, attachments, folders, Metadata etc in Lotus Notes to Outlook in small amount of time.
