Easy Convert Outlook to Lotus Notes Amidst All Odds by [Herry Parker](#)

Article published on April 28th 2012 | [Software](#)

The primary factor in corporate world is data import from Outlook to Lotus Notes. There are number of reasons that create such a need for organizations. The fact that we cannot neglect is that organizations have dire need to go to use newer technologies and Lotus Notes is a live example of highly technical features, which has become a center of attraction for organizations widely. The situation that is somewhat problematic for enterprises is to convert Outlook to Lotus Notes.

Different Myths Regarding Data Migration: The common myths users have in their mind is that data migration from PST to NSF is time-consuming, hard, and extremely laborious task. Conversion is the task that requires patience and preparations before migrating from PST to NSF. Users mostly think that conversion process poses data risk situations. Therefore, careful measures are quite important to follow.

The small or large-sized organizations in the world prefer to convert Outlook to Lotus Notes (<http://www.outlooktonotesconverter.net/convert-outlook-to-lotusnotes.html>) cop up because Lotus Notes known for multiple and well-known features. Organizations need to accept this preeminent factor and that is change in organizations. Outlook lacks some of the very important features that large organizations look for and one of them is security.

Manual Data Conversion: Though manual method available from Microsoft to convert PST files into NSF, but it takes away your time and time is money for organizations that they cannot waste at all. The most important disadvantage of manual method is that you have to be master in running process because missing a single step cause you data loss. If manual method comprises of so many disadvantages then why go for it. It is better to follow simple path and that includes third-party software.

Third-Party Software: To convert all your data from PST to NSF, the recommendation is always for third-party software. Neither risk factor involved nor wastage of time is there.

What Makes Turn Towards Lotus Notes?

In numerous situations, MSÂ® Outlook users move to Lotus Notes like job change, Lotus Notes installed in organizations, want to use Lotus Notes for wonderful techniques, etc. These reasons and many other reasons similar to them make conscious move from PST to NSF.

Convert Outlook to Lotus Notes: If question is to save time and high manual efforts, then rely on outside application like Outlook to Notes. This software supports to work with all Lotus Notes and Outlook versions, so to convert Outlook to Lotus Notes is not an issue with this tool.
