Easy Steps to Convert 3 GP to Apple TV on Your PC by Sarina.Lee

Article published on March 14th 2012 | Software

Hereâ€™s a simple guide on how to convert 3 GP to Apple TV videos on a Windows machine. Youâ€™ll a learn some basic knowledge about 3GP and Apple TV.

Whatâ€™s 3GP and Apple TV?

According to Wiki, 3GP (3GPP file format) is a multimedia container format defined by the Third Generation Partnership Project (3GPP) for 3G UMTS multimedia services. It is used on 3G mobile phones but can also be played on some 2G and 4G phones. But you are not able to use your 3GP file on your Apple TV since they aren't compatible. If this is the case, you can convert 3GP to Apple TV compatible formats like MP4.

Apple TV is a digital media receiver developed and sold by Apple Inc. It gives you access to everything you want to see and hear â€" blockbuster movies, TV shows, your music and photos, even news and sports â€" right on your widescreen TV. Apple TV only accepts a few video formats like H.264 up to 720p at 30 frames per second, MPEG-4 up to 720 x 432 (432p) or 640 x 480 pixels at 30 frame/s.
