Article published on March 6th 2012 | Software

You might have many videos in FLV format downloaded from video websites or obtained from your friends. And now you want to watch them on your home TV set through Apple TV. Hereâ€™s the problem: Is it possible to play FLV on TV set directly through Apple TV? If not, how to do this job? Do you need to convert FLV to Apple TV on Windows compatible format at first?

Can I play the FLV on TV set through Apple TV?

The answer is â€œyesâ€•, but you need to convert FLV to Apple TV compatible videos at first. Though Apple TV can play a lot of videos, this doesnâ€™t include FLV videos. Following are the supported video formats of Apple TV:

* H.264 video up to 720p, 30 frames per second, Main Profile level 3.1 with AAC-LC audio up to 160 Kbps per channel, 48kHz, stereo audio in .m4v, .mp4, and .mov file formats

* MPEG-4 video up to 2.5 Mbps, 640 by 480 pixels, 30 frames per second, Simple Profile with AAC-LC audio up to 160 Kbps, 48kHz, stereo audio in .m4v, .mp4, and .mov file formats

* Motion JPEG (M-JPEG) up to 35 Mbps, 1280 by 720 pixels, 30 frames per second, audio in ulaw, PCM stereo audio in .avi file format

Therefore, if you want to watch the amazing FLV movie with your family via Apple TV, you have to convert FLV to Apple TV to make the video compatible with the device.

What need to convert FLV to Apple TV for playing on TV set?

When it comes to convert FLV to Apple TV, itâ€™s pretty simple. Thereâ€™re many solutions and program out there, my favorite way is to use Free FLV to Apple TV Converter which can convert FLV and SWF Video to Apple TV Video.
