Apple Inc. introduced a service to make digital versions of textbooks available on the iPad and beef up the education content for the tablet computer as it gains popularity in classrooms.

The new service, called iBooks 2, will help make textbooks more interactive with videos, animations and search features, Phil Schiller, Apple's senior vice president of product marketing, said today at an event in New York. More than 1.5 million iPads are being used for educational purposes, he said.

iBooks app embed in iPad brings a lot of fun for us and certainly iPhone, iPod is also among the iBooks back up rank. iBooks uses a eBook format named Epub, which is the best format for reading freely and quickly on iBooks.

But many users want to read open PDF files on the portable devices as good as Epub, but things are not as ideal as they expect:

1. After load all our magazine PDFs to our iPad but none of the photos in the Coifs show up?

2. we can't side load the PDF files like they let us do the Epub books?

3. When we try to open them in mail on the iPhone for transfer over and have them on both devices and we may get an error that the file was too large?

4. When sync PDF to iPad, All existing songs, movies and TV shows on the iPad "The-iPad' will be removed."

To read PDF on iBooks is rather struggling and not cool at all, so just convert the PDF to Epub directly, so we won't meet any problem above or other unexpected situation. The toolkit you will use is right the Mac PDF to iBooks Converter, it is better and more stable way than any other methods.
