Kaspersky Antivirus â€“ fast, safer and affordable antivirus software By Paul Smith

Article published on May 16th 2012 | Software

The Kaspersky is a global anti-virus software company, which has been attracting customers for its price as well as the best security suites. Kaspersky has been a popular antivirus software for the increasing internet users in India. Kaspersky Antivirus 2012 comes with dual cloud and local security system is easy to use and makes the scan fast and gives a high level protection for your pc. Kaspersky Anti virus has a quick and easy install.

The interface of Kaspersky Antivirus seem appealing to the customers and security status update sign helps the user to easily check the security status information like scanning, parental control, update .The interface design is very user-friendly and all the setting help even a new user to understand all the functions available. The cloud protection tab in the interface explains the cloud protection technology uses in Kaspersky Antivirus.

The cloud based protection decrease the load of the suite in the system and gives a faster process for real time protection. File Advisor, System watcher, Roll Back, Network monitor and IE security analyzer are the best features incorporated in the antivirus software for a Kaspersky Antivirus price. Kasperskyâ€™s vulnerability scan and critical area scan that have replaced the Quick Scan available in all antivirus software seem to be fast in action and recommends various action and information that can protect the system.

Kaspersky Antivirus and Kaspersky Internet Security 2012 1 user have the same detection engine .The Kaspersky Internet Security 2012 has some added features more than Kaspersky Antivirus and it does a good scan in real-time attacks from internet. The performance seems to be excellent in both these security suites .Its one of the antivirus programs worth the money spend where the scan is faster and protection is better.

The Latest Kaspersky Antivirus 2012 price is Rs 299 in the Indian market .The Kaspersky Antivirus price may vary in retail dealer. Kaspersky Internet Security 2012 1 user suite is Rs 509 and 3-user suite is Rs 865 available through online vendors. The Kaspersky Antivirus price available in Indian market is just half of its rate in global market, which proves the tool for capturing Indian market. The Kaspersky Internet Security 2012 comes with 3 users, which can be helpful for securing a small network of computers.

The Kaspersky Pure Total Protection 2012 single user is available in a bundle rate of Rs1200 The Kaspersky Antivirus 2012 is good anti-virus software with efficient features and affordable price.
