Article published on November 26th 2011 | [Software](#)

Lacerte Tax Software as a tax preparation software offers a scalable, flexible, and superior tax solution to its users. Lacerte Tax Software hosting via an application hosting and cloud computing service provider provisions ultra high efficiency, tremendous reliability, and enhanced security to small and medium size businesses or SMBs. Hosted Lacerte provides full ability to perform any tax job completely.

Lacerte Hosting Provides Many Benefits

Hosting Lacerte via a cloud hosting service provider entails multitude of advantages to small and medium size businesses or SMBs, such as “

Ultra Fast Network

Customers all over the world get a secure, redundant, and super fast network. They get world class network, which means tremendous speed, full power, high reliability, and almost one hundred percent uptime guarantee. Cloud computing technology deploys fiber optic network; intelligent border gateway protocol routing; robust internet protocol backbone; superior quality routers, switches, and firewalls; etc. Network is proactively monitored twenty hours a day, seven days a week, and three sixty five days a year. Also, an external third party is used to monitor from an offsite location. Double monitoring ensures that network performs to the top of its ability.

Extreme Reliability, Backup, and Support

An application hosting and cloud computing service vendor’s servers are fully redundant, and are fully backed up by multiple diesel generators. Disaster recovery is built in to everything that is hosted and daily data backup solutions are provided. An application and cloud hosting service provider provisions full backup to the hosted software. You get robust and rolling data backup facility. You get totally free support service round the clock.

Always On Accessibility with Hosting

With hosted Lacerte Tax application program on the cloud servers, your office is where you want to be. You can access your application from your office, your home or while you are on the move. You only need a simple Internet connection. With cloud computing technology, you are no longer restrained to the local network. Your hosted Lacerte software can be accessed from any place on this planet and at any time. For access, an Internet connected device is the only requirement.

Through Hosting, Multiple Users Get Concurrent Accessibility

With Lacerte Tax hosting service, multiple users get concurrent accessibility to the same data file at the same time.

You Get Enhanced Security with Hosting

Security measures followed by a Lacerte host include biometric and card access entry systems; early warning intrusion detection system; all equipments housed in locking cabinets, cages or suites; closed circuit digital camera surveillance system; restricted access to the data center building; on site armed security personnel; multiple checkpoints to the controlled areas; on site

monitoring by qualified engineers twenty hours a day, seven days a week and three sixty five days a year; etc. Customers all over the world get a secure, redundant, and super fast network.

Through Lacerte tax software Hosting, You Get Enterprise Grade Data Centers

The enterprise grade data center facilities provided by Cloud Computing service provider are in the area situated on a dual utility power grid. The enterprise grade data center facilities use generator farms. Users get redundant HVAC secure climate controlled data center. These top notch data center facilities are SAS no. 70 type II or statement of auditing standards number seventy type two compliant. They belong to tier four class of data center facilities.
