Windows 7 Forgot Password Problem?

by Linda Smallwood

Article published on January 13th 2012 | Software

Question: My dad forgot his windows 7 password login on his new laptop. He's the only one with an account so he is the admin. We didn't set up a reset password disk so we can't use that. Does anyone know a way to fix this or reset the password without reinstalling windows?

Best answer: Get rid of the forgotten Window Password Unlocker Enterprise.

Why to Use Windows Password Unlocker Enterprise?

Of the numerous Windows password reset programs out there, I recommend trying Windows Password Unlocker Enterprise, which is one of the most popular Window password recovery tool on market first. This app reliably gets the job done without any data loss or damage. The biggest advantage of Windows Password Enterprise lies in that it also allows you to change forgotten Windows 7 password or create a new admin account to access your computer again, in addition to remove the Windows 7 forgot password. And it supports instant password recovery and guarantees 100% recovery rate.

What is Windows Password Unlocker Enterprise?

Windows Password Unlocker Enterprise is a easy yet powerful Windows password reset tool. It can help you create a bootable password reset disk with CD/DVD or USB flash drive in seconds to reset you forgotten Windows password. By using this utility, you are able to:

1. Remove or change your forgotten local admin and other user passwords for Windows 7/Vistsa/XP/2008(R2)/2003(R2)/2000.

2. Create a new admin account to get into your computer again when you forgot Windows local password.

3. Change your forgotten domain admin and user passwords for Windows server 2008(R2)/2003(R2)/2000 acting as domain controllers.

4. Create a new domain admin account to access your Windows domain again after forgetting Windows domain admin password.

Through this Windows Password Unlocker Enterprise, you are able to reset forgotten Windows 7 password in no more than 5 minutes. 100 security and password reset rate are guaranteed.

How to use Windows Password Unlocker Enterprise?

To get started, you only need to create a bootable password reset disk with CD/DVD or USB device in seconds after download and installation. (If you cannot access your own computer, please do this job in any computer. Next you just need to insert the disk in the computer that you want to reset password of, and start the computer from the bootable disk. After that, you will be able to reset Windows 7 forgot password within a few clicks. Then you can log on to the computer without password. More details, watch the video guide.
