Wow Experience for Cox Broadband Customers by [Kellymarion](#)

Article published on November 29th 2011 | [Software](#)

The Internet has redefined communication. Newspaper, book and other print media have been replaced widely with the advent of this new technology based on (TCP/IP) protocol. It has connected the whole world and there will be no exaggeration, if we say, we are a part of this global family. It has become a payload of information resources and services, such as the inter-linked hypertext documents of the World Wide Web (WWW) and the setup to support email communication and cloud-based applications. Innovation has further blessed the generation with services such as Voice over Internet Protocol (VoIP) and IPTV. It has modernized lifestyle as well. People prefer to shop and bank online. Collaborative software, instant messaging tools and social networking websites have given easy-to-connect and share medium for individual and business.

Cox Communications Inc., with above 6 million customers, is one of the best known service providers in the United States, to bundle television, Internet and telephone services together. You may experience the Cox services under four domain, namely, Starter, Essential, Preferred and Premier. Get the ultimate download speeds up to 50 Mbit/s. In 1996, the brand launched its first high speed Internet in Orange County system. You may avail the Power Boost technology for enhanced experience under the Preferred and Premier level. It has received PC Magazine Readers' Choice Award for High Speed Internet in 2003, 2004, 2005 and 2007.

Cox Customer Support is a devoted wing to provide on-demand technical assistance for Cox connection. Pre and post sales customer services are available from the brand. Apart from on-site service which is the beginning, you may avail technical support for troubleshooting any incurred problems with your broadband connection. Experts can setup and configure Email/WebMail and can customize the security settings. They can troubleshoot your network components such as router, modem and network adapter, change the browser preference, modify security settings and can check and remove viruses and malware to fix related problems.

Experts can also deal with data backup and recovery software to handle data lost situations owing to various reasons. Worried about cyber bullying then ask experts to configure the parental controls feature of the installed security software. Cox Technical Support can also help you to connect various services of the brand with your mobile phones.

No matter, whatever the issue and whenever you face it, Cox Support is standing by you. You can send e-mail, call over their toll-free phone or visit the remote support center as per feasibility. At remote support center, you can find product demo or test drive regarding various services in English or any other language as per your preference.

It has a well-organized knowledgebase where you can find quick solutions for various issues. Cox Support is customized, and you have a privilege to choose a support plan of your type, which is affordable and flexible. Moreover, for each service, you get a service-level-agreement, which means experts are responsible for any recurred issue within a fix time-frame. Thus, experience the uninterrupted and safe Internet, and make the maximum of the invested money.
