Article published on August 3rd 2012 | Technology

The word Aiphone has become synonymous with intercom systems and related products. Whenever one thinks of buying an intercom product, Aiphone will be the brand that comes to his mind. The brand has achieved an iconic status because of their uncompromising attitude towards quality. This commitment towards the quality has fetched them highest international award for quality control- Deming Prize. They are the first and only intercom manufacturer to achieve this feat. Their obsession with quality does not stop there. They are again the first among the intercom manufacturers to get ISO 14001 and ISO 9001 certificates. aiphone intercom becomes an automatic choice because of its unique and attractive designs besides its exceptional quality.

Video Intercoms

The video intercoms manufactured by the company consist of high resolution cameras and high definition color monitors for detailed recognition of the visitors. There are systems that can be synced motion sensor cameras which have the ability detect and record unwanted intruders. This will ensure a complete integrated security and surveillance system. You will have the choice to select from a wide array of models classified as JK for budget models, JF, the medium best selling model and the high end state of art JA series.

Choice of Models

Affordable JK series will be handy and best fit for small families and also for small to mid size office buildings. This system is equipped with a highly flexible and wide angle pan tilt zoom camera, it has a high resolution LCD color monitor and there is hands free two way communication systems. Some of the models from JK series are compatible with windows and you can have remote control access and allow the computers to the operation.

JF series has the facility for pre-recorded massages, open voice communication (VOX) and the additional door releasing function. These modern functions have made this series dear to the customers and gave it the status of best seller. The system is great for business premises because of the clear communication and unflinching security aspects. JA series is exclusively designed for entry security. It has a built-in selective door release and CCTV facilities.
