Camera has become a quintessential gadget of our day-to-day lives. The significance of camera has been drastically increased since its inception. Whatever may be the occasion, you will tempt to capture the moment and share with your friends. For this, you definitely require a good quality camera so as to get best results. In this regard, it is worth mentioning that Canon has been serving the customers with many premium grade cameras till date. One such remarkable camera from Canon is the latest Canon PowerShot A3400 IS. This camera has been widely recognized throughout the world owing to its amazing features. PowerShot A3400 is considered to be one of the best entry-level cameras from Canon's PowerShot A Series.

The Canon PowerShot A3400 IS is a pocket camera, which comes with a responsive touch-screen LCD. The lens of this device is rather sharp and it comes with huge 16 mega pixels. This camera has a small and solid metal body and can be availed in red, silver, gold and black finishes. The measurement of this camera is 2.2 by 3.7 by 0.8 inches (HWD) and has a weight of about 5 ounces. According to Digital camera Review, the camera comes with a 3-inch resistive touchscreen that is loaded with a resolution of approximately 230,000 dots. The control buttons of these gadgets have been designed in a way that it does not occupy much space. This gadget is featured with a range of controls, which include a video recording button and a control for help. The program mode of these cameras enables maximum adjustment settings in terms of ISO sensitivity, exposure and white balance. Besides setting adjustments, the user can do more with the preset shooting features, such as long shutter, low-light, portrait, fireworks, discreet and a multitude of other options. The buttons are compact in terms of design and are effective for regular handling purpose. The top of the camera is filled with many buttons such as shutter release button, a zoom rocker and a power button. This camera has been specially designed for those users, who do not need options like manual settings and can easily shoot using just the auto mode.

The Canon A3400 IS camera sports 5x optical zoom. It is also provided with an inbuilt image stabilizer for helping the user to minimize the amount of blur in photography whenever the zoom is utilized. You can also video recording with these cameras. The user can record any video footage at 720p25 HD resolution in QuickTime format. This gadget supports standard SD, SDHC and SDX memory cards, and is equipped with a mini USB port for computer connectivity. The camera also supports a maximum still image resolution of 4608 x 3456. The overall design of this Latest Video Camera is pretty convincing and the overall build quality is also impressive. No doubt, the flap of the battery bay could have been better. Considering the pivotal features, these cameras may just prove to be a wonderful gadget for you.
