In recent times, modern innovations have endowed us with few conveniences that have made our lives and tasks easy. According to the Latest Technology News in India, we have been witnessed to several inventions of 21st century. From televisions to computers, everything has been changed since the advent of technology. Our entire nation has grown into a small world, thanks to the modern inventions that have made communication as convenient as the touch of a button. The latest technologies around us have changed the way we work, play, communicate, travel, watch television and in fact read newspapers. With latest news shown on magazines, channels, newspapers, websites and journals, we have been able to keep ourselves updated with prevailing advancements in the market.

One of the best examples of latest technology is the GPS (Global Positioning System) tracker. Gone are the days when this application was limited to defense, but today even you can find GPS tracker in your child's mobile phone. Yes, the next generation smartphones come integrated with latest GPS tracker in them. Back in 90's, it was difficult to find the location of the concerned person or your family members. The invention of GPS tracker in mobile phones let you track your friends, family, pets and children. Moreover, GPS keeps you updated with the nearby restaurants, cinemas, hotels in case you are in another city or country. The use of latest GPS system facilitates the drivers to locate the exact route to their destination and if your car has been stolen, it helps you to track down its location. GPS can be activated with the use of internet connection in your mobile phone. So, all you thought was that you need a spy to keep an eye or guard to know whereabouts your family, GPS tracker gives you all that safety features that you were looking for.

Are you one of that avid gamer, who keeps on looking for latest games and consoles in the market. Good, then you do have a lot in store for you in gaming in near future. It was the time when we used to play those old & outdated DOS games in our computers. With the latest inventions, we witnessed the era of PlayStations, one of the most advanced gaming consoles ever developed. But as the time changed and with that came all new Microsoft Kinetic for Xbox. With gaming devices you used to control the character in the game with the use of joysticks but Kinetic gives you the free to control the character with the movement of your body. Yes, a dream come true, all thanks to the latest technologies that have changed the way we play video games.

Moreover, the introduction of latest smartphones has enabled us to stay connected with our loved ones throughout the day. This has been possible because of the all new Facebook, Twitter and Skype pre-installed in our mobile phones. The latest mobile phones not only let us talk or SMS, but also make us see our family, friends and children through video calling. All this has been possible due to the advancement in the modern inventions. Further, if updates from Latest Technology News are to be believed, there will be more and more inventions taking place that would change the way you live.
