Pictures Lab an Application to make your pictures more beautiful by [Anup](#)

Article published on July 13th 2012 | [Technology](#)

Picture lab is a perfect image enhancement application, published by Schulte software Development. If you like to click photos and make them beautiful, this is a must have application. With the help of pictures lab you can add thousands of effects and modifications to your pictures. Picture lab provides high quality filtering and image editing tools to enhance the charm of the photo with a very few gestures and a smart user friendly interface.

Features

Pictures Lab is an awesome application that comes with 30 easily controllable filters like Software Tilt

Shift ,HDR, Lomo, Soften, Auto Adjust, Sepia, Sharpen, Comic, Bulge, B&W etc.

During the editing you can see the whole list of pics edited with different effects so that you can select the best one. High Quality borders and frames are available that can be adjusted for any aspect ratio and size.

You can use multiple effects on the same image to find a unique image.

You can crop, re-size, rotate, flip and adjust the brightness, contrast and sharpness accordingly.

The Edited picture can be saved in your phone's picture hub or you can share it with your friends directly on facebook, twitter, etc.

Picture Lab does not automatically changes the resolution of the photos and effects are added to the original size.

If you accidentally jumped off the application, It will save the state of the image and you can get the image, as, it was before and your effects will be restored.

You can edit your pics directly from your picture hub. Just select the image, go to options, then click on extras and Pictures lab can be launched with your selected image.

A drawback of this Application is that if the photo is taken from the camera with in the application, it does not directly save it to the phone's picture hub, you will have to save it manually from the menu.

Over All, this application is an awesome work of piece and a great tool to make your images more delightful and beautiful. This application will cost \$2.99 from the Windows marketplace. You can also get the trial version of the application with full functionality but saving option disabled.
