Study in Australia and Student Visa by [Francis](#)

Article published on February 8th 2012 | [Travel Tips](#)

Australia offers cheaper study and living expenses as compared to many other countries and it has vibrant and appealing multicultural cities with amazing and diverse landscapes and scenery. Australia is the perfect place to enjoy a quality education and outstanding quality of life. What makes study in Australia better is that it offers excellent value for money with tuition costs. International students must show that they have enough money to pay for living expenses, education fee and travel for the duration of their course in order to be eligible to study in Australia.

Universities offer dynamic and progressive education programs with a reputation for excellence. Australia is a popular study destination with students from around the world wishing to gain a top quality education. There are thousands of international student who come to study in Australia every year because they know education is recognized all over the world. Australia is proud of the reputation and quality of its English language intensive course for overseas students. Having a nationally standardized system makes it easier for students to pursue their education as there is a clear pathway to follow.

Student visa Australia is for people seeking to study in Australia for more than 3 months in a recognized school, college or university. To be considered for a student visa, you must first complete an application form. You can apply for a student visa as soon as you have received an offer of a place or a confirmation of enrolment from an Australian institution. Depending on which country you are from and when you lodge your application, you can apply online, through mail or through application form.

There are different student visas Australia subclasses which are based on the education sector of your course of study and include:

â€¢ Subclass 573 higher education is for courses leading to bachelor degree, graduate certificate or diploma or masters by course work.

â€¢ Subclass 574 postgraduate research is for course leading to masters by research or doctoral degree.

â€¢ A subclass 575 non award is for study abroad and exchange program.

If you lodge your application outside Australia you should wait until your visa is granted before traveling to Australia. You should renew your student visa before it expires if you have not completed your course yet, you have submitted your postgraduate research thesis or you are going to commence a new course of study. Student visa Australia is valid for the duration of your course.
