The Experience with a Mississauga Limo Service by [Walt Yoast](#)

Article published on February 9th 2012 | [Travel Tips](#)

If one were to go by statistics, Mississauga is the 6th largest state in Canada. It has a massive terrain and a number of sights that would have you enthralled whether you are a local or a visiting tourist. While there are several modes of transportation in the city, travelling by limousine can completely change the way you experience things here.

Mississauga limousine services are many. You just have to find one that best suits your requirements. The kinds of cars available range from the Cadillac escalade, to the Lincoln as well as the Navigator version. If you are looking for something exotic, you could try the Ford Excursion model or the Chrysler 300. For something a little more macho and sophisticated, the Hummer H2 would be a great bet. All of these are easily available on rent. Negotiating of prices though is something that you will have to be adept at. Besides these models, limousines can further be classified into stretch ones, executive styled or even limo buses.

Each kind of model is suited for a different purpose. If you are hiring a limo to ferry a wedding party, then your choice will depend on the number of people you will be carrying. If it is for prom night, and you plan to use the limo to pick up friends and get to and from a destination, then the stretch or the bus styled limo would do good. Of course, it will also depend on what your budget actually is.

The Mississauga limousine service can also be used for sightseeing. Several honeymooning couples, or partners who would like to impress hire limos that can create an impression. If you are one of them, you could also think of adding features to further enhance your experience. You can have a complete bar on board or adjustable lights with an entertainment system. No matter what the ambiance you are looking for in a limo, it is something that can be worked on.

The great thing about limos is the drivers they come with. They can take on almost any role you want them to. They can be liveried, they can be your tour guides and on your wedding day, they will help you get in and about the car in style. They are able to provide you with the right advice for photo opportunities with the car as well. If you are sending out your teenage children in a limo for their prom night, you can be sure that the driver will have their best interests in mind at all times.
