10 August 2012 :There are several factors to consider when it comes to choosing a web host company. Ultimately, it is the quality of the facilities your hosting provider uses that will define how fast, reliable, and flexible your web hosting service will be. Of course bandwidth and the amount of disk space are the main considerations but other than these, another thing that should not be neglected is web hosting uptime which can determine the quality of the company's service and performance.

For all above facilities provided by Web Hosting Jaipur -offers the best in the industry web hosting services. The main goal of web hosting Jaipur data center is to provide continuous service, with no downtime. By choosing Web Hosting Jaipur as your web-hosting provider you can easily house, store or maintain files, images, video, or other content, of your Web sites 24x7x365 with 99.99% uptime with a best price-value ratio assurance.

Choose web hosting Jaipur for the following reasons:

- 99.99% uptime

- 100% Customer Satisfaction

- 101% Fast & Friendly customer support

- 100% Secure Servers

- 100% Reliability

- Data Center Location USA

- User friendly Mail Server, And above all

Besides these, you also get a range of other benefits as well:

- Minimum hops required to reach your website.

- Faster accessible web pages due to incredibly fast and powerful servers.

- Best customer support.

- FREE applications

- Regular Backups

Apart from conventional Windows or Linux web hosting, we also provide Dedicated Servers and Virtual Dedicated Servers. Therefore, if you plan to host a traffic-intensive Web site or plan to launch a gaming application website, our web hosting would be the best for you as it delivers flexibility to build your own server.

Offering some of the best in the industry web hosting plans

Our Windows hosting plans, Linux hosting plans, Windows reseller and Linux reseller plans are the best as far as Disk Space Pool, Bandwidth Pool, number of hosted domains and Email accounts are concerned.

When we talk of Windows Hosting plan, Web Hosting Jaipur offers 100 MB disk space pool with a bandwidth of 1000MB. In this Windows Hosting Plan, shared IP addresses are included and it hosts one domain and one sub-domain. This Windows Hosting plan also comes with My SQL database connectivity and five Email accounts, giving you all the freedom of having your personalized emails. All this comes at an affordable price of Rs500 per year.

If we talk of Linux Hosting plan, Web Hosting Jaipur offers the same plan features as it is for Windows hosting and at the same price.

The Windows Reseller Plan by Web Hosting Jaipur could be all yours at a throwaway price of Rs2500 per year. This plan comes with a Disk Space Pool of 1000 MB and a wide Bandwidth Pool of 10000 MB with Shared IP Addresses. It can host up to five domains and ten sub-domains. It comes handy with over fifty email accounts and an equal number of FTP accounts. The Linux Reseller Plan also is the same as Windows Reseller Plan and you can own it the same price.
