Lose Weight at Home with These 3 Simple Steps by [Evan Nasser](#)

Article published on July 9th 2012 | [Weight Loss](#)

The entire lose weight at home scenario revolves around two, vital and never-changing things: Being overweight and wanting to lose the weight at home, thus, needing to lose body fat, remains a direct result of eating too much food and not getting enough exercise. Yet, you hear this very same lose-body-fat news so often that your brain instantly goes into SHUT-DOWN or shut-off mode. A tendency to assume "I've Been There Before, Heard It All Before, Done It All Before, and It Never Works for Me," turns to obstacle.

What Does It Take To Lose Weight at Home?

To lose body fat, you need to incorporate sheer simplicity, plus ultimate science because understanding how to lose body fat comprises your awareness of BOTH concepts. Now is the time to prepare your heart and mind for non-stop challenge, consistent focus, and utmost care.

You are here seeking some viable remedy, correct? Our time together here is far more worthwhile if I just go ahead and tell you, right now, what it takes to lose weight at home. In a nutshell, your biggest key is mental preparedness. Yep. That's the biggie!

As soon as you discover how to convince your mind to issue "lose weight" commands, you are well on your way to fitness success. To lose weight at home, then, is a quite simple matter. Ye, of course, the difficulty you may face lies in your initial THINKING, then the reality of DOING.

There are a few things you will have to do in order to lose body fat. If and when you are willing and ready to do these things, you are SURE to lose body fat, without question.

LONG-TERM "LOSE WEIGHT AT HOME" SOLUTION

ONE: Once and for all, learn how to find out your daily caloric consumption and your energy expenditure numbers. Both of these numbers are absolutely crucial because they tell you exactly what your body is doing, right down to the very calorie. Once this calculation process becomes second nature to you, full control of the amount of body fat you carry lay right in the palms of your very hands.

In other words, you can shape your "lose weight at home" fortune and alter your lean body appearance almost exactly how you want it to be.

TWO: Work out for the most part, using much more drive and intensity than you ever have before in your entire life! I say this to you primarily because # 1) remotely conscious human tendencies that we all have toward relaxation and taking the easy way out of a challenging situation rather than facing and conquering its root cause, plus #2) endorsed exercise science knowledge says that performing at higher thresholds gives you life-extending benefits and burns higher amounts of calories from excess body fat. So, to enormously yet safely lose body fat, begin to train yourself towards high intensity interval exercise.

You may burn twice as many calories as you did before, plus feel better and look better, too.

THREE: Now, with this last one, allow me to isolate your biggest probable obstacle. The number one problem is that you hear this very same lose weight at home so much and so often that your brain instantly goes into SHUT-DOWN or shut-off mode. That is, the tendency to assume the "I've

Been There Before, Heard It All Before, Done It All Before, and It Never Works for Me" syndrome kicks in immediately.

The solution? Put on some new "lose body fat" ears today, starting right now. Allow yourself to hear the deeper gist this message carries. Cease to dismiss the seemingly small yet crucial matters that make the difference between your continued frustration and your lose body fat reward.

Understanding the true meaning of what it takes to lose body fat requires acceptance, open ears, and action. To learn more about how to Lose Weight at Home visit loseweightathomenow.com
